CUSTOMER WORK REQUESTED TO BE DONE:

PLEASE READ AND SIGN:

STM requests you please pick up your vehicle as soon as possible after your service is completed and we contact you. We will charge a $10 per day storage fee if the vehicle is not picked up after 2 business days. Any leftover parts not taken by the customer will be disposed of if not claimed when picking up your vehicle. 8% New York State Tax will be added to all in-house work.

Federal and many state laws prohibit the removal, modification or rendering inoperative any part that affects emissions on motor vehicles used on public roads. Many aftermarket parts and services are intended and designated for track and off-road use only. STM is not responsible for your decisions to modify a vehicle or what you do with it after.

Customer certifies that the vehicle is insured and their own property. Vehicles may be left outside. STM cannot be held responsible for damages that may occur inside or outside the premises, including and not limited to storm damages, accidents or thievery. While we take all precautions, we simply cannot babysit drivers or be held accountable for the actions of those who break the laws or be accountable for the weather or attempt to prevent an alien attack. Please have your vehicle insured and plan accordingly.

STM reserves the right to turn down work for any reason upon inspection.
